### Proposed TC-R Standards

Pursuant to Section 103-9.4.C.11. of the Snellville Unified Development Ordinance, a written, documented analysis of the impact of the proposed rezoning with respect to each of the following matters shall be included. Please respond to the following standards in the space provided or attach additional sheets if necessary. Simple yes/no answers or re-statement of the standard is not acceptable and shall be considered non-responsive.

A. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties.

Yes, the site is situated at a major intersection within the county and city. Currently, there is mostly commercial, and office uses in close proximity, many of which are vacant. The Town Center is directly across 78, which is in walking distance of the subject site.

B. Whether the zoning proposal would adversely affect the existing use or usability of adjacent or nearby properties.

No, the development is intended to support the adjacent uses and the Town Center. Utilizing existing streets and contributing to enhanced walkability, the development is ideal for infill residential.

C. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.

The property is currently owned by the Methodist Church, and the subject site is not needed for their operation. The Applicant submits that the property does not have reasonable economic value as currently zoned.

D. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

No, the zoning proposal will not result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

E. Whether the zoning proposal is in conformity with the policy and intent of the Future Land Use Plan.

Yes, it's within the Town Center character area of the future land use plan. This area specifically calls for medium to high density housing that encourages walkability around the Town Center.

F. Whether there are other existing or changing conditions affecting the use and development of the property, which give supporting grounds for either approval or disapproval of the zoning proposal.

The consistency with the land use plan, the need for infill housing, and lack of demand for more office and commercial are amongst supporting grounds for approval.
